

# Assurance Solutions

Business today is anything but static. From emerging technologies to shifting operational challenges and increasing regulations, the landscape changes constantly. That's why our assurance services are built with adaptability at their core.

At Sorren, we don't believe in one-size-fits-all solutions. Our experienced professionals focus on understanding *your* business inside and out—its culture, goals, and unique challenges. With this foundation, we deliver tailored insights and recommendations that help you make better-informed decisions.

The heart of our financial reporting services is a deep understanding of your business—its operations, risks, and internal controls. Our risk-based audit methodology ensures that we focus on the areas that matter most, delivering insights that drive efficiency and accuracy. We combine industry expertise with a tailored approach to provide audit plans and review processes that tackle your organization's most pressing challenges while delivering precise, meaningful results.

## ASSURANCE SOLUTIONS

### Audit

- Gain the assurance needed to secure funding, comply with regulations, and confidently communicate your financial position.

### Review

- Meet lender, bonding, and licensing requirements with limited assurance tailored to your business needs.

### Compilations

- Present your financial information clearly and professionally without requiring assurance.

### Agreed Upon Procedure

- Get targeted insights from custom procedures designed to address your specific concerns or obligations.

### Section 42 Audits

- Maintain compliance with low-income housing tax credit requirements and continue delivering affordable housing.

### HUD Audits

- Demonstrate accountability and proper fund use while meeting federal compliance standards for housing programs.
